Think-ets!

Parents are you tired of your kids playing video games and sitting all day with their ipods on their heads. Well, we understand and that is why we are happy to introduce you to [THINK-ETS!](#)

This tiny little game will keep your children occupied in any place, while getting them to think outside of the box. This fun game will get your children thinking and using those brain cells GOD gave them. [Think-ets](#) is a thinking game and is perfect for taking it with you to the next dinner outing. It will keep them occupied and happy while waiting for their food to come. This is also a fantastic family game for a Friday night. Get your whole family involved. Parents with Style is proud to recommend such a great [game](#).

[Check out the video!](#)

Think-ets are for ages 8 years and up in age.

[About Think-ets from their site!](#)

[Think-a-Lot Toys](#) was founded in 2005 to create games, products and accessories designed to foster human connectedness and encourage imaginative thinking. Their continued goal is to create a host of products and accessories revolving around miniature trinkets from around the world—objects that provide fun and joy for all who come into contact with them.

Think-ets are available at specialty toy and gift stores nationwide and have a suggested retail price of \$9.99. They are recommended for anyone between the ages of 8 and 108. For more information call Think-a-Lot Toys at 303-449-2737 or visit their website at <http://www.think-a-lot.com/>

[Think-ets](#) is the world's first little game in a pouch containing tiny treasures from all over the world. Think-ets has an assortment of 15 collectible miniature trinkets that can be used to create games and provide hours of entertainment. Think-ets is ideal for home, restaurants, in the waiting room or anywhere! No two Think-ets games are the same so kids can try and

collect all the playing pieces! They are designed for kids 8-108 and their families.

- [Think-ets](#) is a great game that inspires imagination and can lead to many hours of fun by yourself or with friends and family. It is a great game to take in your purse or leave in your car for a time filler at restaurants.

- “Oh my! We eat out a lot, and with three kids this is a lifesaver. We use this product while we are waiting for our orders. It’s the perfect way to pass the time. It’s easy to carry/store. It’s quick to set up. It’s quick to clean up. It engages every member of the family and encourages family interaction, creativity and fun!

- “It’s a toy which allows children to be really creative. We liked the fact it allowed our daughter to do whatever she wanted with it and helped her with opening her imagination. It’s also very portable as well, allowing it to be played nearly anywhere.

[We love this tiny little game here at Parents with Style. I love the fact that the kids aren't staring at the television and they are working out their little brains.](#)
